8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joerg-Uwe Szipl on May 23, 2005.

The application has been amended as follows:

Claim 1, line 6, "resin" insert --having a nitrogen content of from 12 to 22% by weight--.

Claim 3, line 4, replace "0.6 to 1.3" with --0.6:1 to 1.3:1--.

Cancel claims 2 and 6-10.

The following is an examiner's statement of reasons for allowance:

The closest prior art to Tobisawa et al. Patent No. 6,486,242 discloses a phenolic hydroxyl group-containing phosphorus compound wherein "[a] nitrogen content exceeding 4.0% is undesirable as it elevates hygroscopicity of the composition." Thus, Tobisawa et al. directly teaches away from the claimed nitrogen content of from 12 to 22% by weight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
